Carver, MN 55315

Dear Mr. Essig:

Sorry for the extremely long delay on sending you this magazine. The story with your information is marked. The publication ended up editing the piece extensively, but there is a nice picture of the pond.

We continue to be interested in projects you are planning to build. Later this week, I'll be calling to ask about projects that may include some of our new free standing wall products.

Thanks again for your assistance with this article.

Sincerely,

A handwritten signature in cursive script that reads "Nancy Johnson".
